

THE KERICELL TEAM

Kericell Nursery has been growing quality flower and vegetable seedlings for the last 15 years. We supply weekly and contracted lines to over 85 independent garden centres and chain stores around the north island. Kericell prides its self on being a family owned business employing over 35 local people. Based in Kerikeri which apart from the great fishing is also known for its favourable growing conditions.

Kericell can indent any products you require.

KERICELL HOME HARVEST 17CM POT

(6 per tray)

Indent sent in March

	DESCRIPTION	SPRING	SUMMER	AUTUMN	WINTER
Eggplant Container Choice	A compact eggplant for pots or where garden space is limited. Shiny dark purple pear-shaped mini fruit to use in a variety of dishes. Harvest when the fruit is still shiny and the flesh firm.	✓	✓		
Eggplant Asian "Kermit"	Compact, multi branched plant with small round fruit around 38-40mm in diameter when harvested. Use in Asian dishes. Firm flesh that holds together well when cooked. Can be eaten raw like an apple or sliced.	✓	✓		
Okra Clemson Spineless	AKA "Lady's Fingers" a staple in Asian, Indian and Middle Eastern cuisine. Pods grow up to 25cm long but should be picked around 5-7cm otherwise they become stringy. They grow quickly so check often.		✓		
Capsicum Lunch Box Orange	Dwarf capsicum producing masses of mini sized fruit, harvested at approx. 3.5 to 6cm. Sweet mild flavour, ideal for a variety of dishes including salads, sandwiches, pizza. Perfect whole in the lunch box.	✓	✓		
Capsicum Lunch Box Red	Dwarf capsicum that produces masses of mini sized fruit, harvested at approx. 3.5-6cm. Sweet mild flavour. Ideal for a variety of dishes including salads, sandwiches, pizza. Perfect whole in the lunch box.	✓	✓		
Capsicum Lunch Box Yellow	Dwarf capsicum that produces masses of mini sized fruit, harvested at approx. 3.5-6cm. Sweet, mild flavour. Ideal for a variety of dishes including salads, sandwiches, pizza. Perfect whole in the lunch box.	✓	✓		
Capsicum Early Wonder	Large dark green fruit that turns red on maturity. Cut can be used green if preferred. Prune overcrowded fruit to prevent rotting and increase air circulation.	✓	✓		
Tomato Sweat Treat	A small round deep red tomato with an intense sweet flavour. Each truss producing 8-10 fruit, good disease tolerance. Perfect in salads, sandwiches or whole in the lunch box.	✓	✓		
Tomato Red Robin	Dwarf compact plant small round fruit. Ideal for pots or in the garden. Great in salads, sandwiches or whole in the lunch box.	✓	✓		
Cucumber Snacker	Shiny, smooth skinned cucumber with fruit approx. 10 cm long. Early maturing and no pollination required. Use in a variety of dishes or whole in the lunch box.		✓		

	DESCRIPTION	SPRING	SUMMER	AUTUMN	WINTER
Chilli Scotch Bonnet Red	A relative of the Habanero so it packs some heat. The red fruit is shaped like a woollen cap. Chillies can often give you another season with some protection over winter.	✓	✓		
Chilli Carolina Reaper	This is a chilli for the dedicated heat seeker. Wrinkled bright red fruit with a distinctive tail. Chillies can often give you another season with some protection over winter.	✓	✓		
Chilli Jalwa	AKA Finger Pepper. Green skinny long fruit ripening to red. Chillies can often give you another season with some protection over winter.	✓	✓		
Chilli Red Scorpion	Considered another very hot chilli. Ripening to deep red flesh that is slightly wrinkled. Chillies can often give you another season with some protection over winter.	✓	✓		
Chilli Red Rocado	Fruit shaped like small red apples with unusual black seeds. Growing in to a rangy shrub approx 1.5m high. Tolerates cooler conditions and with some protection from frost this perennial chilli can last a few years..	✓	✓		
Chilli Ghost Pepper	If hot is what you want then this is the pepper for you. Fruit is wrinkled and wedge shaped, colouring to red at maturity. Chillies can often give you another season with some protection over winter.	✓	✓	✓	
Chilli Red Eye	A sturdy plant producing intensively hot bright red fruit. The fruit set easily and point skywards. Harvest around 6.5cm long. Chillies can often give you another season with some protection over winter.	✓	✓	✓	
Chilli Habanero	A very hot green and red pepper, small twisted fruit. Harvest when the skin turns red and starts to wrinkle. Chillies can often give you another season with some protection over winter.	✓	✓	✓	
Chilli Fire	A medium hot pepper, good for all round use. Heavy producer of green fruit maturing to red. Chillies can often give you another season with some protection over winter.	✓	✓	✓

BEE A DETECTIVE

Find Bee Friendly Plants
for Your Garden

Bee Food

- Plant a variety of bee friendly plants like annuals, perennials, herbs, fruits and vegetables, shrubs and climbers so that bees have food all year round
- Bees love the colour blue and prefer a single bloom over doubles
- Place a shallow container of water out for your bees

Bee Safe

- Healthy plants equal less bugs
- Look out for bee friendly pesticides and follow the directions carefully
- Only spray when you need to and on infected areas
- Spray when bees are away in the evening or after sun set

Scan me

Bee Aware

- Bees need our help and we need theirs
- Bees are one of the hardest workers in the garden and over one third of our food depends on bees as does our horticultural and agricultural industry
- New Zealand bees are increasingly under threat from Varroa, disease (AFB), misuse of pesticides, loss of habitat and the increasing lack of food
- New Zealand is host to 28 species of native bees with 27 being endemic to New Zealand
- Look out for Bee Friendly labels
